[Download Prospector Update](#)

[It's Time to Perform a Prospector Internet Update!](#)

Thank you for continuing to use Anthem Blue Cross and Blue Shield's *Prospector* rating system. The latest *Prospector* Internet update 7.3.1 is now available for downloading. Please perform an Internet update to ensure that you have the latest information.

Here are highlights of items added or changed with this update:

1. *Agent's Guide* Spring 2008 (revised)
2. Extension of rates for KeyCare HSA, KeyCare FlexChoice and Essential KeyCare to 9/30

Performing an Internet Update

Performing an Internet update is easy. Simply go to the Systems Utilities section found on the Main Menu and click on the "Update" button. The Prospector will identify which version you currently have and send you directly to the download screen on the website. You'll then be able to download any updates in sequential order. It's essential that you select the update that immediately follows the version you have. If you skip several versions of the update, your materials will be lost. Please continue to perform Internet updates regularly, every other week or so, to ensure that you have the most current information available.

If you need additional technical assistance, please call the Broker Sales and Retention Unit 1-800-225-3611, follow the prompts and select option 1. Sincerely,

Cyndy St. Cromer

Cyndy Cromer
Manager, Broker/Field Sales
